

Flu shot: The smartest way to keep kids in school

Studies show that students, as well as teachers and parents, are at a higher risk during flu season.

That's why you need to make sure you and your children get their seasonal flu shot right now. It's safe and readily available. And for protection against the flu, it's your best course of action.

For more information, ask your health care provider or pharmacist, call 2-1-1 or visit www.ldh.la.gov/FightTheFlu.
