

**Sanitary Code - State of Louisiana
Part II - The Control of Disease**

LAC 51:II.105: The following diseases/conditions are hereby declared reportable with reporting requirements by Class:

Class A Diseases/Conditions - Reporting Required Within 24 Hours

Diseases of major public health concern because of the severity of disease and potential for epidemic spread-report by telephone immediately upon recognition that a case, a suspected case, or a positive laboratory result is known; [in addition, all cases of rare or exotic communicable diseases, unexplained death, unusual cluster of disease and all outbreaks shall be reported.]

Anthrax	Neisseria meningitidis (invasive infection)	Smallpox
Avian Influenza	Plague	<i>Staphylococcus aureus</i> , Vancomycin
Botulism	Poliomyelitis, paralytic	Intermediate or Resistant (VISA/VRSA)
Brucellosis	Q Fever (<i>Coxiella burnetii</i>)	Tularemia
Cholera	Rabies (animal & human)	Viral Hemorrhagic Fever
Diphtheria	Rubella (congenital syndrome)	Yellow Fever
<i>Haemophilus influenzae</i> (invasive infection)	Rubella (German measles)	
Influenza-associated Mortality	Severe Acute Respiratory Syndrome-associated Coronavirus(SARS-CoV)	
Measles (rubeola)		

Class B Diseases/Conditions - Reporting Required Within 1 Business Day

Diseases of public health concern needing timely response because of potential of epidemic spread-report by the end of the next business day after the existence of a case, a suspected case, or a positive laboratory result is known.

Arthropod-Borne Neuroinvasive Disease and other infections (including West Nile, St. Louis, California, Eastern Equine, Western Equine and others)	Hemolytic-Uremic Syndrome	Mumps
Aseptic meningitis	Hepatitis A (acute illness)	Pertussis
Chancroid ¹	Hepatitis B (acute illness and carriage in pregnancy)	Salmonellosis
<i>Escherichia Coli</i> , Shig-toxin producing (STEC), including <i>E. coli</i> 0157:H7	Hepatitis B (perinatal infection)	Shigellosis
Hantavirus Pulmonary Syndrome	Hepatitis E	Syphilis ¹
	Herpes (neonatal)	Tetanus
	Legionellosis (acute disease)	Tuberculosis ²
	Malaria	Typhoid Fever
	Mumps	

Class C Diseases/Conditions - Reporting Required Within 5 Business Days

Diseases of significant public health concern-report by the end of the workweek after the existence of a case, suspected case, or a positive laboratory result is known.

Acquired Immune Deficiency Syndrome (AIDS)	Hepatitis C (acute illness)	Streptococcal disease, Group B (invasive disease)
Blastomycosis	Hepatitis C (past or present infection)	Streptococcal Toxic Shock Syndrome
Campylobacteriosis	Human Immunodeficiency Virus (HIV Syndrome infection)	<i>Streptococcus pneumoniae</i> , Penicillin resistant [(DRSP), invasive infection]
Chlamydial infection ¹	Listeria	<i>Streptococcus pneumoniae</i> (invasive infection in children < 5 years of age)
Coccidioidomycosis	Lyme Disease	Transmissible Spongiform Encephalopathies
Cryptosporidiosis	Lymphogranuloma venereum ¹	Trichinosis
Cyclosporiasis	Psittacosis	Varicella (chickenpox)
Dengue	Rocky Mountain Spotted Fever (RMSF)	Vibrio Infections (other than cholera)
Ehrlichiosis	Staphylococcal Toxic Shock Syndrome	
Enterococcus, Vancomycin Resistant [(VRE), invasive disease]	<i>Staphylococcus Aureus</i> , Methicillin/Oxacillin Resistant [(MRSA), invasive infection]	
Giardia	Staphylococcal Toxic Shock Syndrome	
Gonorrhea ¹	Streptococcal disease, Group A (invasive disease)	
Hansen's Disease (leprosy)		
Hepatitis B (carriage, other than in pregnancy)		

Class D Disease or Conditions - Reporting Required Within 5 Business Days

Cancer	Lead Exposure and/or Poisoning (All Ages) ³	Severe Undernutrition (severe anemia, failure to thrive)
Complications of Abortion	Monoxide Exposure and/or Poisoning (All ages)	Sickle Cell Disease (newborns) ³
Congenital Hypothyroidism ³	Pesticide-Related Illness or Injury (All Ages)	Spinal Cord Injury
Galactosemia ³	Phenylketonuria ³	Sudden Infant Death Syndrome (SIDS)
Hemophilia ³	Reye's Syndrome	
Heavy Metal (Arsenic, Cadmium, Mercury) Exposure and/or Poisoning (All Ages)	Severe Traumatic Head Injury	

Case reports not requiring special reporting instructions (see below) can be reported by Confidential Disease Report forms (2430), facsimile (504)219-4522, telephone (504)219-4563 reports or 1(800)256-2748 or web based at <https://ophrdd.dhh.state.la.us>.

¹Report on STD-43 form. Report cases of syphilis with active lesions by telephone.

²Report on CDC72.5 (f.5.2431) card.

³Report to the Louisiana Genetic Diseases Program Office by telephone (504)219-4413 or facsimile (504)219-4452 and the Louisiana Childhood Lead Poisoning Prevention Programs.
